PROFILE INFO

An ambitious and detail-oriented Computer Engineering student with a passion for technology, innovation, and continuous learning. I thrive in collaborative environments and enjoy transforming complex problems into efficient, user-friendly solutions. With a strong foundation in software development and a commitment to excellence, I aspire to contribute meaningfully to forward-thinking teams and impactful projects.

PROJECTS

HISABKITAB- LENDING BOOK-KEEPING APP (HACKATHON PROJECT)

- Developed a web application for digital lending and group expense tracking with features for seamless financial management and real-time collaboration.

ECO-GRID - ALL IN ONE WASTE MANAGEMENT KIT (HACKATHON PROJECT)

- Developed a web app using Next.js and Mapbox-GL to display and manage dustbins and dumping sites.

PUSTAK - BOOK DONATION & EXCHANGE PLATFORM (HACKATHON PROJECT)

- Created a website for facilitating book donations and exchanges to help underserved communities.

BHAKTA-TOUR - QR-BASED TOURISM GUIDE (HACKATHON PROJECT)

- Built a tourism web app that provides historical and cultural insights when scanning QR codes at attractions.

WORK EXPERIENCE

Intern – Frontend Web Development

AsterGaze Solutions | Remote | May 2025 – July 2025

- Contributed to UI/UX design improvements and implemented frontend features to enhance user experience.
- Participated in regular code reviews, agile sprints, and team meetings, gaining hands-on experience with real-world software development practices.
